Front End Web Developer

Portfolio: <https://tharunnookala.netlify.app/>

## PERMANENT ADDRESS

Khammam (District), Telangana, India. Currently residing in **Hyderabad**.

## OBJECTIVE

Innovative Front End Developer with almost 2 years of experience in building and maintaining responsive websites. Proficient in HTML5, CSS3, SCSS, JavaScript, React, Redux, Tailwind CSS. Upskilling myself to grow as a MERN stack developer. Currently learning Mongo DB, Express JS, Node JS.

## PROFESSIONAL EXPERIENCE

**Systems Engineer in Infosys, (July 2021 – May 2023)**

**Front End Web Developer – (~ 2 years)**

- Worked on technologies such as HTML5, CSS, **JavaScript**, **React** for developing various websites.
- Involved in technical tasks for creating several websites such as development, enhancement and maintenance of the sites.
- Created new features, functionality and capabilities on the eCommerce sites using React and managed state using react-redux.
- Performed quality assurance tests on various sites to ensure cross browser compatibility and mobile responsiveness.
- Developed react components such as Carousel cards, Search bar to fetch data from API and FAQ Component for the obtained designs from Figma by UI team.
- Worked with version control systems like Git to manage code and collaborate with other developers.
- Collaborated with back-end developers to ensure seamless integration of front-end and back-end functionality.
- Implemented best practices for SEO and web analytics by implementing lazy loading of images, minification of scripts, relying on caching etc to reduce the load time.
- Familiar with Agile methodologies, Scrum and Jira to effectively manage projects.

**React and JavaScript Developer**

To keep up-to-date and get more hands-on in front-end development, I have been building personal projects myself using React JS.

- Also built projects using HTML5, CSS3, SCSS, JavaScript, React JS, Tailwind CSS, Firebase, Redux.
